HUBNETIX
Fibre Optic Rack Mount Patch Panel-L8 Series

LANLINE

Description

HUBNETIX LANLINE ODF (Optical Distribution Frame) rack mount fibre patch panel - L8 series is designed to fit on a standard 19″ rack or optical fibre distribution frames, and provide optimal protection for all fibre optic applications. There are two cable entry points on the back of the fibre housing fitted with rubber grommets to protect the fibre optic cable from damage. It can be customized to load up to 48 connections. Each fibre enclosure includes one cable routing spool and 24 fibre splice tray.

Features

- Top quality steel with electrostatic paint ensures strong body and pleasing appearance.
- Easy installations: 19″ wall mounting.
- Easy operations: Drawer style.
- Cable inlet system provided on the rear side which has excellent performances for fixing outdoor cables.
- Fully stable patch panel, no risk of movement.
- Adoptable adapter types: FC, SC, ST, LC
- Options of Splice trays & fibre management guides.
- Protected patch panel offers secure environment for adapters, patch cords and pigtails.

Dimensions and Capability

Height	Depth	Width	Capacity	
			FC/SC/ST	LC duplex
1U	300	19″	24	48
2U	300	19″	48	96

Operation Conditions

Temperature	-5ºC -- +60ºC
Humidity	90% at 30ºC
Air Pressure	70kPa – 106kPa
